Standards Used² – Others

- **eLearning** – IEEE’s LOM (Learning Object Metadata)
- **Gazetteer** – ADL’s GCS (Gazetteer Content Standard)
- **All projects** – Dublin Core

Standards Used³ – Approach

- **Adopt existing standard** directly and prepare related **best practices**, or
- Develop **Application Profile (AP)**
- **A hybrid approach**: use existent metadata standards as a reference to **customize** them into various application profiles for a wide of requirements in NDAP.
